

/home/runner/work/Raytracer
/Raytracer/src/ILogger.hpp

```
graph TD; A["/home/runner/work/Raytracer  
/Raytracer/src/ILogger.hpp"] --> B[functional]; A --> C[string];
```

The diagram illustrates a file path at the top, which then branches into two arrows pointing to the words 'functional' and 'string' in separate boxes below.

functional

string
